

## PRODUCT REPLACEMENT NOTICE

August 2011

EasySYNC Limited had recently sent you a Last Time Buy Notice for products:

<b>EasySYNC P/N</b>	<b>Description</b>
ES-R-2001-M	RS232 to RS422 / RS485
ES-R-2101-M	RS232 to isolated RS422 / RS485

EasySYNC are now happy to announce the release of two replacement units for these devices:

<b>EasySYNC P/N</b>	<b>Description</b>
ES-R-2001B-M	RS232 to RS422 / RS485
ES-R-2101B-M	RS232 to isolated RS422 / RS485

These new units supersede and are near identical to the original versions, except for the power supply input. The older units had a regulator on the input and the "B" units have a switching PSU to allow a higher voltage range.

EasySYNC is currently in production on the new units and expect stock in place by the middle of September 2011.

Please either look at our website [www.easysync-ltd.com](http://www.easysync-ltd.com) or contact your local sales office for further updates on the release of these products.
